

“FAIRMEADOWS OWNERS AND RESIDENTS” Response to the COVID-19 Outbreak and the recent Earthquake

As members of the Board, we are very concerned about the health and safety of our Fairmeadows Residents and your families. Now that we are all faced with the threat of the COVID-19 global pandemic, it is important for us not to panic but to become informed and also to follow recommended guidelines. To help curb the spread of influenza (flu) as well as the COVID-19 viruses, we all need to be more careful and cautious for the next few weeks.

Like many other community activities, the monthly Board Meetings have been cancelled for the month(s) of April & May, or until further notice. The Board and Management will telephone conference and email and provide the results of any pertinent business necessary to keep you informed as to the operations of the Association. If updates are necessary, they will be posted on the website. **In order to help protect The Board (and other members of our community) from being exposed to numbers of people at an event or using the amenities in the Clubhouse on a daily basis, the Clubhouse is closed, and all social events have been cancelled until further notice.** Please contact Keri in the office at 801-561-4151, Dave Matheson or Jordan Andrews at (801) 566-1411 for any updates to this announcement.

Watch for symptoms of COVID-19 including fever, cough, or shortness of breath which can be mild to severe and do not go to work or public areas if you have them. Other symptoms may include fatigue, sore throat, and chills. Get medical attention immediately if you or someone else has difficulty breathing, persistent pain or pressure in the chest, or bluish lips or face.

Here is some simple advice for you to use to determine how you should engage medical professionals **if you have symptoms of COVID-19:**

1. Use the telephone or video call as your first interaction with medical professionals. Do not wait to make contact via telephone. You will receive the best instruction from the people you talk with on the telephone if you need to be tested, and where you can go for COVID-19 screening. You can reach a qualified medical professional by calling:
 - a. your personal doctor
 - b. 1-844-442-5224 for Intermountain Healthcare
 - c. 1-801-213-8669 for University of Utah Health

2. DO NOT call 911 or go to a hospital emergency department or an urgent care facility unless you are instructed to do so by a medical provider, or unless you are experiencing shortness of breath or other severe symptoms.

This information is passed on to you from the sources referenced as a courtesy and is not meant to be exhaustive and the HOA is not responsible for the content. We encourage all of the Owners and residents to become fully informed and to take the preventative and cautionary actions each deem to be in their own best interests and in the interest of their neighbors and our Community.

In light of the earthquake we experienced on March 18th, please take the following actions to ensure that your home is a safe and secure environment:

- Do not turn off your natural gas supply at the meter unless you smell gas or hear it escaping from a gas line. (If this occurs, shut the gas off at your meter, vacate your home, call Dominion Energy at (800) 323-5517. If you discover an emergency dial 911.
- We suggest that you check your basement for any evidence of a natural gas smell or waterline damage (water leaking from pipes).

Please be careful, vigilant, and considerate of others. It is our hope that the faster that we all adopt these simple precautions, the more effectively we might be able to limit the spread of this virus in our community. We hope that all of you will stay safe and healthy during this difficult time over the coming weeks.

Please let us know if we can assist you in any way. Should you have any questions or concerns, you may call Keri during her hours here from 8 a.m. to 1 p.m. and/or Dave Matheson, Property Manager at (801) 566-1411.

With warmest regards,

The Management Committee
